Business Gateway case?

Type of risk

Health risk / other

Risk description (technical defect
and consequences)

The particle/filter retention of the material is insufficient (measured values: as low as 71%). Consequently, the product does not fulfil the health and safety requirements; thus, even if combined with other recommended measures, it may not properly protect the user.

Legal provisions (at EU level) and
European standards against which
the product was tested and did not
comply

The product does not comply with the Personal Protective Equipment Regulation and the European standard EN 149.
